

Your brain is out to get you

**David Grandinetti
(Imposter at Large)**

I have no idea what I'm doing

A failure to internalize success

Success = Luck
Failure = My fault

mark - Initializers

```
initWithFrame:(CGRect)frame {  
    = [super initWithFrame:frame];
```

```
self) {  
    self.backgroundColor = [UIColor whiteColor];  
    self.autoresizingMask = UIViewAutoresizingFlexibleHeight | UIViewAutoresizingFlexibleWidth;  
  
    _spinner = [[UIActivityIndicatorView alloc] initWithActivityIndicatorStyle:UIActivityIndicatorViewStyleWhiteLarge];  
    _spinner.color = [UIColor grayColor];  
    _spinner.autoresizingMask = UIViewAutoresizingFlexibleLeftMargin | UIViewAutoresizingFlexibleRightMargin |  
        UIViewAutoresizingFlexibleTopMargin | UIViewAutoresizingFlexibleBottomMargin;
```

```
self addSubview:self.spinner];  
self setNeedsLayout];
```

```
return self;
```

```
-(void)layoutSubviews {  
    [super layoutSubviews];  
    _spinner.center = self.window.center;
```

```
-(void)showInView:(UIView *)view {  
    SASLoadingIndicatorView *loadingView = [[SASLoadingIndicatorView alloc] initWithFrame:view.bounds];  
    loadingView.layer.zPosition = 1;  
    [view addSubview:loadingView];  
    [loadingView.spinner startAnimating];
```

```
-(void)removeFromView:(UIView *)view {  
    for (UIView *subview in view.subviews) {
```

//**FIXME**: I have no idea
how or why this works.
